

EVIDENCES FOR A YOUNG EARTH
(Genesis 1:1 - 2:4)

- I. Evidence from HUMAN Civilization
 - A. Oldest WRITTEN records are 4000 to 6000 years old
 - B. Scattered civilizations emerged SUDDENLY and SIMULTANEOUSLY
 - 1. Similarity of CREATION and FLOOD memories
 - 2. Similarity of ARCHITECTURAL and CULTURAL elements
 - 3. AGRICULTURE too recent
 - 4. No newly “DOMESTICATED” animals since about 2500 BC
 - C. POPULATION statistics
 - 1. At 25% of present growth rate, population would be produced by a SINGLE PAIR in about 4000 years
 - 2. A ONE MILLION year age for humanity would produce a population of ten to the 2100th power
 - 3. If growth so slow as to produce present population in a million years, over THREE TRILLION people would have died by now, producing enormous FOSSIL and ARTIFACT evidence
- II. Evidence from the ATMOSPHERE
 - A. Slowest rate of HELIUM release gives maximum age of 2,000,000 years
 - B. Fastest rate gives maximum age at less than 12,000 to 15,000 years
- III. Evidence from the OCEANS

- A. Surface WATER could have been produced at present rates of venting in a maximum of 340 MILLION years
- B. Chemical content from PRESENT rates of deposit gives ages ranging from 62 MILLION years (sodium) to only 100 years (aluminum)
- C. At present rate of erosion, all CONTINENTS would have eroded to SEA LEVEL in 14 MILLION years
- D. If sea floor was originally BEDROCK, current rate of sediment deposits put greatest age of earth at 15 MILLION years

IV. Evidence from GEOLOGY

- A. Transfer of material from earth's MANTLE, would have produced earth's CRUST in less than 500 MILLION years
- B. Earth's magnetic field is DECAYING with a half-life of 1400 years
- C. DIAMONDS contain significant levels of Carbon-14
- D. Maximum age for NIAGARA FALLS is 9,000 years

VII. Evidence from ASTRONOMY

- A. COMETS should not continue to exist in an old universe
- B. Interplanetary DUST should no longer be observable in an old universe
- C. Galaxies SPIN too FAST
- D. Too FEW supernova REMNANTS can be found

IX. Evidence of QUANTUM ALGEBRA

- A. Demonstrated that the universe is DETERIORATING at a measurable rate
- B. Concluded that universe was PERFECTLY ORCHESTRATED between 6000 and 10,000 years ago
